- Electric shut-off
- 150 CFM blower
- Includes #5 nozzle
- Filter bag
- Suction blast
- Small footprint
- Economically priced

Mini Tumble Blast Cabinet

Mini Tumble Blast Cabinet

Perfect for automotive shops and other low-production applications, the FMB-161 automatically removes rust and carbon buildup.

The barrel holds two gallons, up to 25 lbs. of parts, engine components, or other small hardware. The suction blast system works with most fine mesh media and requires just 17 CFM of air at 60 PSI max. Unit includes door mounted gun, 150 CFM blower, filter bag, and manual 60-minute timer.

Machine Type	Height (Inches)	Width (Inches)	Depth (Inches)	Volume (Gallons)	Electrical
